EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claim 24 as drawn to the non-elected invention wherein upon restriction, applicants did not traverse.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to the following;

1. (Original) An alkali-developable negative resist composition comprising a compound (A) which generates an acid upon exposure to radiation, and a resin component (B) which is made insoluble in alkali under the action of an acid, wherein the component (B) is a resin component containing:
 - (b1) a unit which becomes insoluble in an alkali solution as a result of the formation of a lactone under the action of an acid generated from the component (A), and
 - (b2) a unit having an alcoholic hydroxyl group.

None of the prior art references disclose the claimed negative resist composition.

Applicants by submitting a certified English translation of their priority document 2002-152699 have overcome the rejection under 35 U.S.C. 102(e) over YOKOYAMA et al 2003/0134232 now U.S. patent 6,800,423 by predating that reference.

HADA et al is withdrawn based on the comments by applicant wherein the copolymer of HADA et al lacks the presence of the claimed (b2) unit having an alcoholic hydroxyl group. The

Art Unit: 1752

reference fails to disclose a unit that meets (b1) as claimed wherein a lactone is formed within the same monomer unit upon exposure to an acid.

Accordingly, claims 1-23 and 25-28 are seen as allowable over the prior art of record and passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Chu whose telephone number is (571) 272-1329. The examiner can normally be reached on Monday - Friday from 9:30 am to 6:00 pm.
